Bilateral Meetings

- 02:00 pm - 06:30 pm

Description

Since 1984 Tecnoagri has conceived and manufactured agricultural and industrial equipment. The success that our company gained during these years comes from the great ability and willingness to keep on innovation in order to fully satisfy our customer. The current production focuses on the following fields: - digging up with the following products: backhoe arms for digging up machines, backhoes attached to the tractor, attached excavators, mini-excavators buckets, hydraulic ramdrills. Tecnoagri backhoes are designed to excavate, load, dig and clean ditches. They fit low, medium and high power tractors through a 3 point linkage, with digging depth from 1,5 to 3,6 m - moving: forklifts attached to the tractor, hydraulic buckets for products displacement, metal and stainless steel containers with tilting system, tippers for containers and bins to be fitted to forklifts, bales loaders attached to the tractor, grabs and forks for hay and straw bales handling, forklifts channels - soil cultivation: the company offers a wide range of cultivators as well as in- and out- tree cultivators with disks or weeder blade. The hydraulic or electrohydraulic machines fit 3 point linkage tractors - green maintenance and shredder with a wide range of multi-purpose shredders, which are suitable for cutting grass, shredding brambles, shrubs, branches resulting from pruning, straw, maize stocks The ideas of quality, versatility and safety concerning Tecnoagri products are the basis of our company philosophy, which is supported by an efficient and competent team as well as by the selection of certified and first quality raw materials. Even if it is not a very big company, Tecnoagri is particularly active, dynamic and attentive to innovations. At present about 80% of products are exported in Europe, South Africa, South America, Asia and Australia. "ONLY FIRST QUALITY" By affixing this "Only First Quality" stamp TECNOAGRI certifies that products have been manufactured using top-quality raw materials and made by highly professional and skilled workers. In this way products stand out due to their reliability, ease of use and long service life. Nothing less than the highest quality products can be expected from this mix of excellent qualities. Fully conscious of this fact TECNOAGRI has combined technology and expertise and craft skills to obtain top-of-the-range products that translate the passion, talent, craft mastery and industrial efficiency into a tangible proof of efficiency and competitiveness. True expression of ORIGINAL MADE IN ITALY
